

HOME AND HOSPITAL INSTRUCTION

A student with a temporary disability which makes school attendance impossible or inadvisable shall receive individual instruction in the student's home, a hospital or other residential health facility, excluding state hospitals. If a student's physical condition so indicates, a mutually agreeable meeting place (i.e., library) may also be considered. This instruction applies to students incurring a physical, mental or emotional disability after which they can reasonably be expected to return to regular day classes or an alternative education program without special intervention. It does not apply to students identified as individuals with exceptional needs pursuant to Education Code 56026. (Education Code 48206.3)

(cf. 6158 - Independent Study)

(cf. 6164.4 - Identification of Individuals for Special Education)

Home or hospital instruction shall be provided only by teachers with valid California teaching credentials who consent to the assignment. (Education Code 44865)

(cf. 4112.2 - Certification)

(cf. 4113 - Assignment)

The district shall offer at least one hour of instruction for every day of instruction offered by the district in the regular education program. No student shall be credited with more than five days of attendance per calendar week or credited with more than the total number of calendar days that regular classes are offered by the district in any fiscal year. (Education Code 48200, 48206.3)

Insofar as possible, the teacher providing home or hospital instruction shall consult with the student's current classroom teacher(s) so as to provide a continuity of instruction that enables the student to stay abreast with the regular school program.

The Superintendent or designee may require verification through a written notice from a physician or through the district head nurse. In addition, this verification shall also state that the disabling condition will not expose the teacher to a contagious disease that can be transmitted through casual contact. Home or hospital instruction shall not be denied to students with Hepatitis B, herpes or HIV/AIDS, as long as the home or hospital practices current preventive protocol as determined by the U.S. Centers for Disease Control.

The home and hospital program is designed as a temporary placement and cannot provide instruction of less than ten days. Placement requires a review of services at the end of each semester.

(cf. 4119.42/4219.42/4319.42 - Exposure Control Plan for Bloodborne Pathogens)

(cf. 4119.43/4219.43/4319.43 - Universal Precautions)

(cf. 5112.2 - Exclusions from Attendance)

(cf. 5141.22 - Infectious Disease)

HOME AND HOSPITAL INSTRUCTION (continued)

Nondistrict Students

A student of another district who is temporarily disabled and confined to a hospital or health facility within this district shall be eligible to receive individual instruction in this district. (Education Code 48207)

In such circumstances, it is the responsibility of the parent/guardian to notify the district of the student's presence in a qualifying hospital. (Education Code 48208)

Upon receiving such notification, the Superintendent or designee shall: (Education Code 48208)

1. Within five working days of the notification, determine whether the student is able to receive individualized instruction and, if so, when it shall begin. Instruction shall begin no later than five working days after the Superintendent or designee has determined that the student is able to receive individualized instruction.
2. Within five working days of the beginning of the individualized instruction, the Superintendent or designee shall provide written notification to the district in which the student was previously enrolled stating that the student shall not be counted by that district for purposes of computing average daily attendance, effective the date on which individualized instruction began.

Alternatively, the Superintendent or designee may enter into an agreement with the district in which the student was previously enrolled to have that district provide the individualized instruction. (Education Code 48208)

Parental Notifications

At the beginning of the school year, the Superintendent or designee shall notify parents/guardians that: (Education Code 48208, 48980)

1. Individual instruction is available for temporarily disabled students as prescribed by Education Code 48206.3.
2. If a student becomes temporarily disabled, it is the parent/guardian's responsibility to notify the receiving district of the student's presence in a qualifying hospital.
